Product End of Lifecycle (EOL) Notice

Altech Brand Circuit Breakers

Dear Valued Customers,

This letter is to inform you that Altech Corporation is executing an end of lifecycle process for all Altech Branded Circuit Breakers. After a thorough review of the existing product offering, we have made a determination to discontinue those products in order to provide you with more advanced products.

Product availability is limited to the stock currently available at the Altech warehouse. See attached list for specific part numbers.

We sincerely appreciate your use of this product planned for discontinuation and we ask your understanding on any inconveniences caused by this. We hope this notification allows you to shift future projects to our other line of Doepke Brand Circuit Breakers. Our German manufacturing partner Doepke has been a market leader of European RCBO and RCCB products for three quarters of a century and has been producing quality UL rated circuit breakers for us. If you have any questions about crossovers, the Doepke brand of circuit breakers, or any other concerns, please contact Klaus Tum or Patrick Purcaro.

Thank you,

Klaus Tum
Product Director
